Fullstack Developer

Adiss Abeba,Ethiopia

PROFESSIONAL OBJECTIVE

Expert web and Bot Developer: With deep expertise in backend development, I specialize in designing and implementing scalable APIs, optimizing server-side architectures, and delivering high-performance solutions. I am Passionate about solving complex challenges, I am eager to contribute my skills to innovative projects, drive impactful results, and continuously push the boundaries of technology.

SOME PROJECTS

Project: **BMV ERP**

Tech Stack: Nest js and Express js

While working at Go Digital, I played a pivotal role in designing and building the architecture for the BMV ERP system. This comprehensive ERP solution was designed to streamline and optimize business processes, demonstrating efficiency, scalability, and modularity in its backend implementation.

Project: **OROMIA BANK BOT**

Tech Stack: Express js

During my tenure at Blih Marketing, I designed and developed a highly user-intensive Telegram Referral bot for Oromia Bank and Global Bank Ethiopia. The bot was tailored to engage users seamlessly, ensuring an intuitive experience while managing the complexities of backend processing and referral tracking.

Project: **Mr BEAST CRYPTO MINI APP**

Tech Stack: Python & React

In this Web3 crypto project for MrBeast, I developed a high-performance fullstack mini app and bot tailored for heavy customer use. The project, based on the Ton Blockchain, focused on providing seamless decentralized interactions, scalability, and robust performance.

Project: **Glofica Finance**

Tech Stack: Nest Js, Next js

It's a microservices-based remittance platform, I developed a high-performance fullstack system using hexagonal architecture. The system is designed for secure and scalable international money transfers, focusing on clean separation of concerns, maintainability,

PROFESSIONAL EXPERIENCE

Blih Marketing | 2022 - 2023: At Blih Marketing, I worked as a programmer, gaining valuable experience in web development and bot development using Python and Node.js.

Go Digital (2023-2024): At Go Digital, I worked as a Backend Developer, gaining valuable experience in web development using Nest Js and Express Js

Techsphere Technology (2024-Present): At Techsphere, I worked as a Fullstack Developer, gaining valuable experience in web development.

Upwprk (since 2023): As a freelancer, I have worked on websites and Telegram bots, gaining valuable experience and Top Rated Badge in web development using Trending Tech Stacks.

HARD SKILLS

- FRONTEND: React js, Next js, Tailwind, Sass
- BACKEND: Node js, Express js, Nest js, python
- TELEGRAM: BotApi, Telethon, Telegraf, Ton Blockchain
- DATABASE: postgresQL, MongoDB, MySQL, Firebase
- DEVOOPS: CI/CD, Docker, Kubernetes
- API: Rust Api, GraphQL
- OTHERS: Jest, github, orm, gRpc, Kafka, Redis and BullMQ

EDUCATION

Admas University

Bachelor's Degree in Computer Science
2019 - 2023

CERTIFICATIONS

- Project Management
- Amazon Web service
